Bay Area Video Coalition

HTML and CSS—Intermediate

Syllabus

Instructor: Richard S. Mitchell
urchard@comcast.net
Web site: www.urchard.com/teaching/

Course description
In this course we continue learning HTML and CSS (Cascading Style Sheets).The course covers advanced HTML elements like forms and tables. CSS topics covered include the box model, positioning, advanced selectors, interactivity through CSS, and cascading and inheritance. The student will learn the new concepts in the context of building a web page from a Photoshop comp.
